SPEEDING INNOVATION FOR INDUSTRY

What does CEA Tech do?
Technological research; in other words, we develop technology and make it available to businesses.

What services does CEA Tech offer?
We help businesses innovate through targeted services designed to get new products to market.

What industries does CEA Tech target?
Businesses across virtually all industries—housing, transportation, the environment, aerospace & defense, security, food, healthcare, and leisure—can leverage our innovation services.
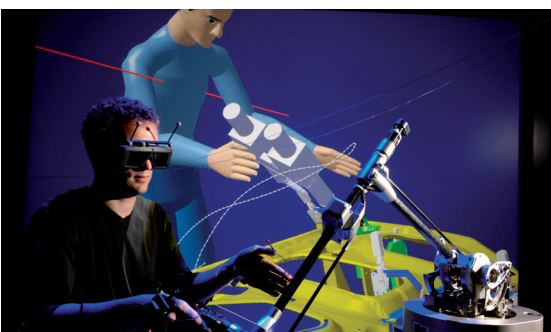

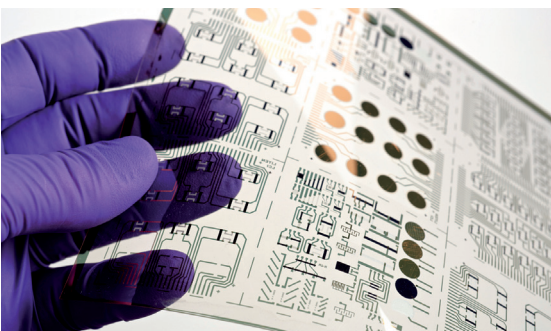

What types of businesses does CEA Tech work with?
Businesses of all types and sizes from all industries—from traditional manufacturing to high-tech—can benefit from our services.

Where is CEA Tech located?
We have locations in the Greater Paris area (Saclay), in the Rhône-Alpes region (Grenoble and Chambéry), and, since 2013, in the following regions of France: Pays de la Loire (Nantes), Aquitaine (Bordeaux), Midi Pyrénées (Toulouse), PACA (Cadarache), and Lorraine (Metz).
