

# DEEP TECH INNOVATION CREATING VALUE FOR INDUSTRY

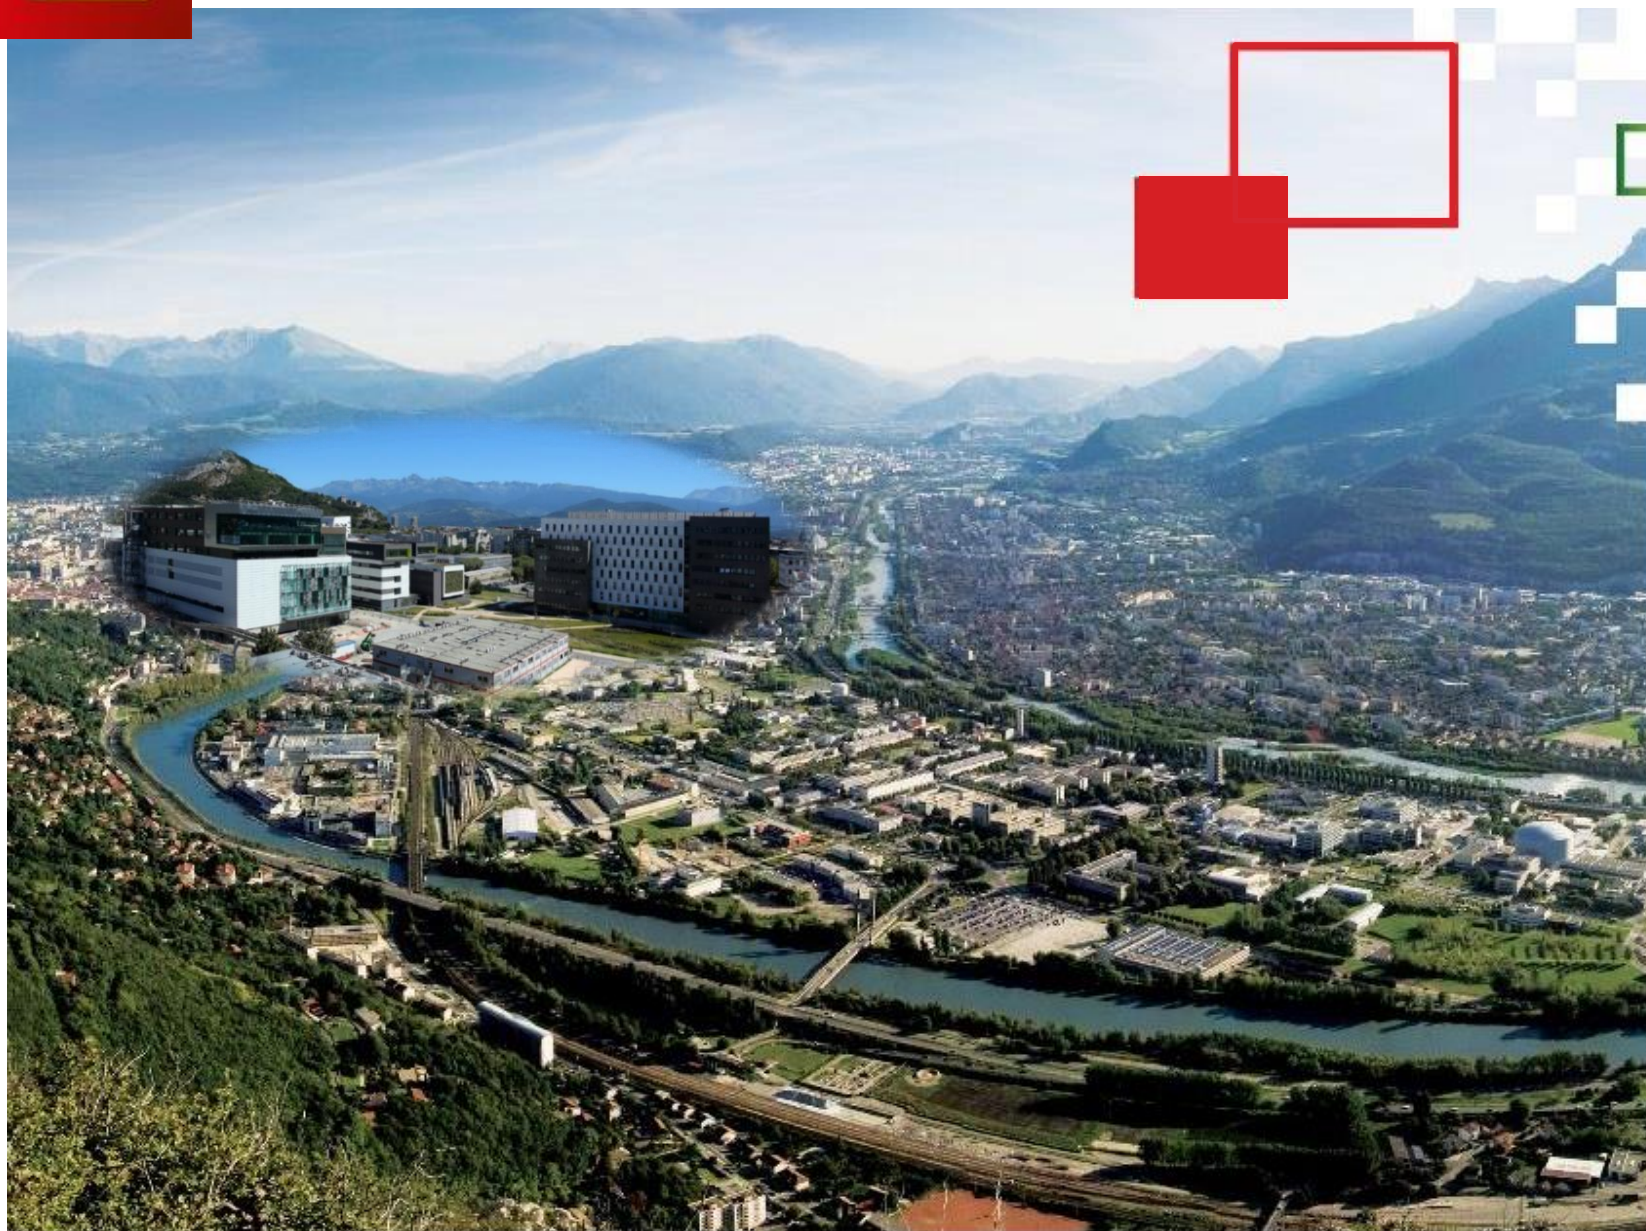

Leti | 2020-02

Committed to innovation,  
Leti 's teams pioneer micro-& nanotechnologies, optics and photonics, ...,  
enabling smart, energy-efficient and secure innovations for industry.

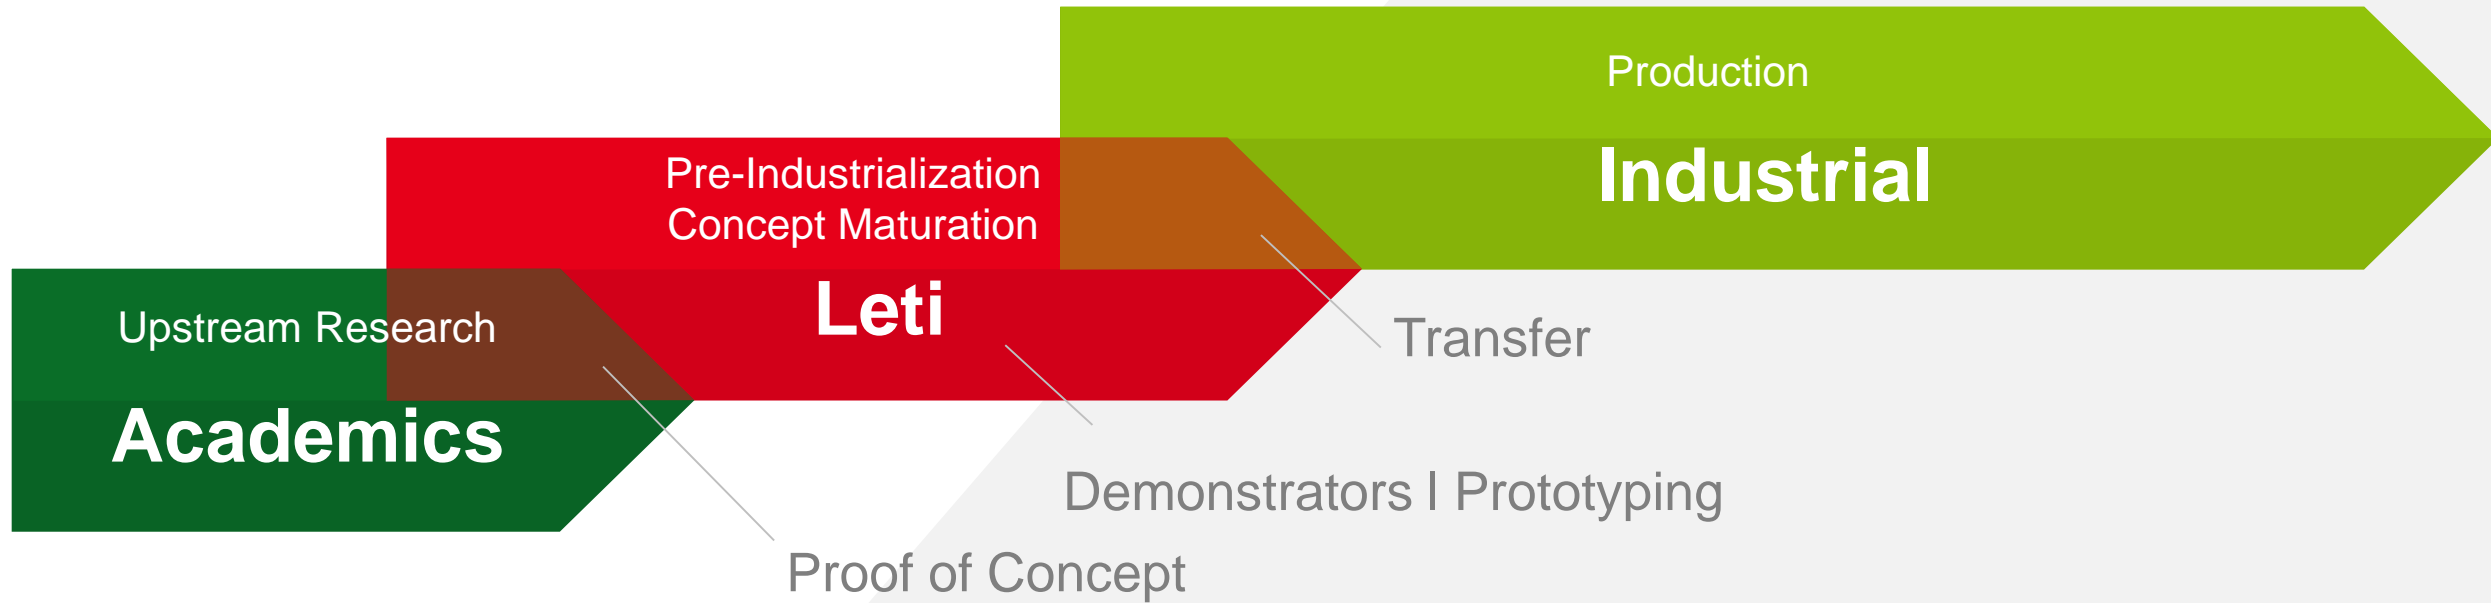

# A key R&D partner in innovations for more than 50 years

**Grenoble (FR)**

-  Since **1967**
-  France, USA, Japan
-  **2,000 People**
-  **> 2,760 Patents in Portfolio**
-  **350 Industrial Partners**
-  **> 65 Startups Created**
-  **10,000 m<sup>2</sup> Cleanroom 200 - 300mm**
-  **315 M€ Budget**  
(85% from R&D contracts)

# Bridging the gap between academia & the Semicon Industry

- **Long-term partnerships**
- **Milestones-oriented** projects
- Highly available and flexible teams

## Client's value at a glance

- ✓ **PROOF OF CONCEPT AND PROTOTYPING CAPABILITY**  
including mass production constraints for fast technology transfer and reduced time to market.
- ✓ **KEEP CONTROL OF THE TECHNOLOGY**  
future transfer and negotiation with manufacturers
- ✓ **MASS PRODUCTION SOLUTIONS**  
Innovative breakthroughs that meets mass-market requirements
- ✓ **TRUST: LONG TERM BILATERAL PARTNERSHIPS**  
with year after years results and client satisfaction

# Innovate today with Leti to build value tomorrow
