

Disrupting the computing paradigm with Leti

A stimulating discussion of our vision for more Moore devices.

December 4, 2016 from 5 - 9 pm Nikko Hotel, San Francisco

> REGISTER

Program

Leti's experts will present their latest achievements and technology roadmap for more Moore devices:

Welcome/Introduction – Leti at a glance Dr Marie Semeria Leti's CEO

Which Devices for New Computing Paradigms?
Dr Maud Vinet
Advanced CMOS Laboratory Manager

Revisiting the Memory Hierarchy for Tomorrow Computing Systems Dr Elisa Vianello Memory Research Engineer

3D Technologies: Several Disruptive Technologies to Look Ahead Dr Olivier Faynot
Microelectronic Division Manager

Key note speaker Dr Karam Chatha Qualcomm

Brain Inspired Computing for Advanced Image and Pattern Recognition
Dr Marc Duranton
CEA Fellow

Quantum Electronic for Efficient Computing Dr Silvano de Franceschi Research Engineer

The workshop will be followed by a networking event.
